

metalac COOKWARE

WE LOVE COOKING

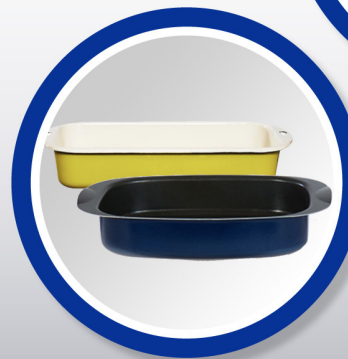

Metalac is a European Brand with 60 years of experience. The best techniques and materials have been used to make enamel, non-stick and stainless steel cookware.

Metalac is aligned with the UNIDO 'Cleaner Production' project. The project is designed to save water and energy, as well as reduce the impact of production on the environment.

Over the years, Metalac has gained the trust of customers.

Metalac is reliable product which meets quality and safety standards. We make excellent cookware that satisfy our customers and their needs in the kitchen.

Enamel cookware is bacteria repellant, easy to clean and maintain.

Baking trays for pastry or perfectly roasted meat and / or vegetables

Metalac collaborates with retailers worldwide:
